

# STATE HEALTH PLANNING AND DEVELOPMENT AGENCY

BENJAMIN J. CAYETANO  
GOVERNOR OF HAWAII

MARILYN A. MATSUNAGA  
ADMINISTRATOR

1177 Alakea St. #402, Honolulu, HI 96813 Phone: 587-0788 Fax: 587-0783 www.shpda.org

## ADMINISTRATOR'S REPORT September Update 2002

### H2P2 Implementation Activities of the Subarea Health Planning Councils (SACs)

- Hawaii** H2P2 Chapter on Behavioral Health: The Hawaii County SAC is proceeding on its grant project studying access to behavioral health services/facilities. Via the grant, SHPDA contracted with the UH for research assistance. With the SAC, a survey of service providers has been conducted. Members are also planning for related community forums and are planning a January 2003 conference to present all the data and develop an action plan with stakeholders.
- Honolulu** H2P2 New Chapter Development – Long Term Care: Given the breadth and diversity of services in this chapter, members are approaching it in phases. The first phase is the elderly. Other phases will address disabled and medically fragile persons. In keeping with the format and focus of H2P2, members are gathering health outcome indicators/measures from national sources.
- Tri-Isle** H2P2 Chapter on Dental/Oral Health: The SAC's Alliance and others are continuing their work in facilitating community processes to develop a Maui County Oral Health Plan. In addition, the SAC is holding an education session about Maui health care with the hospitals and non-profits.
- Windward** H2P2 Chapter on Diabetes and other Chronic Disabling Conditions: The SAC did not meet in September 2002.
- West Oahu** West Oahu SAC members are on sabbatical for the summer.
- Kauai** H2P2 Chapter on Behavioral Health: In addition to a partnership with the Kauai Drug Abuse Coalition to produce and disseminate updated info sheets on Kauai's drug treatment community resources, members discussed possible initiatives with other rehabilitation efforts for former drug inmates.

## Research and Statistics:

Website stats: The SHPDA website had 10,071 hits in August. Our number one attraction for the past several months is the “Health Policy Guidebook” section followed closely by our new section featuring the executive summaries of certificate applications.

Utilization Report: The SHPDA Inpatient Utilization Survey now has a 100% response rate! Please note that just a few hospitals and a nursing home procrastinated for several months in sending us their data – this caused the delay in publication of this report for all of our customers.

The Home Health Survey has a 53% response rate. The Agency is strongly reminding those who have failed to respond to do so as soon as possible via letter and telephone calls.

## Certificate of Need Applications

- |         |   |
